Hope for Kids

Celebrating  
40 Years  
of Hope  
1976-2016

The MACC Fund, Midwest Athletes Against Childhood Cancer, Inc., supports research in the MACC Fund Center at Children's Hospital of Wisconsin, at the Medical College of Wisconsin and at the University of Wisconsin's Carbone Cancer Center. Since its inception in 1976, the MACC Fund has contributed \$50 million for pediatric cancer and blood disorder research. The overall five-year survival rates for childhood cancer have risen from 20 percent to 80 percent during this time with the MACC Fund's support playing an important role in that progress.
