

The MACC Fund, in partnership with
GIGI MKE Boutique, presents

Designed to Inspire

**Benefiting Pediatric Cancer &
Related Blood Disorders Research**

TUESDAY, NOVEMBER 7, 2023

10:30 a.m. Reception
12-1:30 p.m. Program & Lunch

Hyatt Regency Milwaukee | 333 W Kilbourn Avenue | Milwaukee, WI 53203

For 40 years, Women for MACC (Midwest Athletes Against Childhood Cancer) inspired others to support our mission of bringing hope to families through research & awareness to end childhood cancer and related blood disorders.

Although Women for MACC announced their dissolution at the end of 2022, the MACC Fund is committed to working with dedicated volunteers to ensure the flagship events you know and love will continue to raise awareness and funds for our mission – events like Designed to Inspire.

Over the years, this event has become much more than a fashion show. It's a day for family and friends of all backgrounds, ages and lifestyles to come together to enjoy a silent auction, wine pull, luncheon, fashion and, most importantly, to show their support of the MACC Fund and the little heroes and angels who inspire us each day.

Partnering with GIGI MKE Boutique, we're excited to continue the tradition on Tuesday, November 7th with an event truly "Designed to Inspire."

**Please partner with us for Designed to Inspire and support
this important work to end childhood cancer
and related blood disorders!**

Hope for Kids

maccfund.org/events | gigimke.com

Designed to Inspire Co-Chairs: Alicia Buttchen Anderson, Melissa Marney & Alli Neumann

Did you know...

EVERY 2 minutes a child is
diagnosed with cancer.

More than 40,000 children are
in cancer treatment each
year. More than 15,000
children & teens will be
diagnosed this year in the U.S.

95% of kids who win the fight
against cancer, have other
life-long side effects from the
cancer and/or its treatment.

Since 1980, ONLY 3 drugs
have been specifically
approved & less than 10
drugs have been developed
for use in children.

Just 4% of government
cancer research goes to
childhood cancer.
